

**Before the
FEDERAL COMMUNICATIONS COMMISSION
Washington, D.C.**

In the Matter of

Spectrum Needs of Emergency Response
Providers, Input Required for FCC Report
Mandated by the Intelligence Reform and
Terrorism Prevention Act of 2004

WT Docket No. 05-157

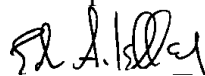

**MOTION TO ACCEPT LATE-FILED COMMENTS
OF INTEROPERABLE WIRELESS**

Pursuant to Section 1.46 of the Commission's Rules, Interoperable Wireless respectfully requests the Commission to accept the attached late-filed comments in the above-captioned proceeding.

The concepts contain herein are entirely recent development in insights and concepts all of which were developed after the April 28, 2005 filing date. These comments offer the FCC a unique perspective that is extremely responsive to the Congressional request for FCC comments on spectral efficiency. Further, we submit that these attached comments are in the interest of all the petitioners who did file by the April 28, 2005, because they offer the only possible way to bridge the chasm between all those submissions that request more spectrum for public safety and all those submissions that say that public safety requires no additional spectrum. As such we submit that no interested party will be prejudiced by the granting of this motion.

For the foregoing reasons, Interoperable Wireless respectfully requests that the Commission grant this Motion to Accept Late-Filed Comments.

Respectfully submitted,
Interoperable Wireless
